

CDC DORADO YELLOW FLAX

CDC Dorado is a high-yielding yellow flax with better oil content, linolenic acid content, and a good disease package. CDC Dorado is suited to all flax-growing areas of western Canada.

STRENGTHS:

- Significantly higher oil and meal protein
- Higher iodine value & higher linolenic acid content
- Shatter-resistant
- Moderately resistant to wilt & powdery mildew

2026 Alberta Seed Guide	Colour	Yield (% CDC Glas)	Maturity	Seed Size	Height (cm)	Oil Content (%)	ALA Content (%)
CDC Glas	Brown	100	108	Medium	62	46	57
CDC Dorado	Yellow	89	106	Large	55	45	64
