SeedNet

AB BREWNET MALT BARLEY

AB BrewNet Barley is a 2-row malting barley that is ideal for brewing, feed, or forage. There is a a lot of market opportunities with AB BrewNet in the malting market with it's high yields and large kernels.

STRENGTHS:

- Low protein
- Good lodging resistance
- Moderately resistant to the surface-borne smuts, stem rust, and FHB.
- Low Don Accumulation
- Test weight and kernel weight similar to checks

ATTRIBUTES:

- Yield 1% higher than the malt check AAC Synergy
- Slightly longer season vs checks
- Feed, forage, or malt use

2026 Alberta Seed Guide	2 or 6 Row	Non-Glycosidic Nitriles Trait	Yield (% AAC Synergy)	Maturity (days)	Height (cm)	Lodging Resistance
AAC Synergy	2	Regular	100	93	81	Fair
AB BrewNet	2	Regular	100	96	88	Good
